

Date: March 25, 2025

Time: 11:00 AM

Location: Zoom Meeting

Attendees: Lauren Reyes, Ryan McBride, Abdul Abdullahi, Antonya de Silva

Absentees: Nick Dossin

Sprint in Progress: Sprint 3

Brief Summary: In this week's meeting, the team addressed preparations for the user interviews and sending out surveys to target community staff members. Our point of contact discussed the creation of the survey using Qualtrics and how she would lead and guide team members Ryan and Adbul through the data management and survey creation process. Our interviews would ideally have two members of the team present and would either be conducted in focus groups or would be scheduled out accordingly. Antonya stated that she would assist in contacting the interviewee and organizing the interviews.

Action Items:

- Send draft of interview script and survey questions to Antonya for feedback
 - Once feedback is received, changes will be made and the surveys can be sent out
- Wait for Antonya to hear back about interview scheduling and potential interviewees.
- Ryan and Abdul should prepare to meet with Antonya separately regarding Qualtrics rundown and training.
